Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 10, 20, 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Savoie CA 2166671 in view of Hale et al. 2,906,077.

Savoie discloses the claimed device as shown in the marked up figure on the following page. As shown in Fig. 4, the conveying roller has helical ribs, is in the discharge opening and is not wider than the cutters.

However, Savoie fails to disclose wherein the conveying roller has an outermost diameter which is smaller than the outermost diameter of the lower conditioning roll, as per claim 9; and

Wherein a conveying roller axis is generally vertically aligned with the plane of the cutting zone, as per claim 10.

Hale et al. discloses a similar device wherein the outermost diameter of the conveying roller (65) is smaller than the outermost diameter of the lower conditioning roll (50); and

Wherein a conveying roller (65) axis is generally vertically aligned with the plane of the cutting zone (M, see Figure 4).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to include the conveying roller diameter of Hale et al. on the device of Savoie in order to provide a compact size to accommodate the pivoting of the roller.

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Savoie and Hale et al. as applied to claim 20 above, and further in view of van der Lely et al. 4,476,666.

The device is disclosed as applied above. However, the combination fails to disclose wherein the series of cutters include multiple of oppositely rotating cutters.

Van der Lely et al. discloses a similar cutting device including oppositely rotating cutters (8).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to include the oppositely rotating cutters of van der Lely et al. on the device of Savoie and Hale et al. in order to prevent clogging that would adversely affect the mowing operation.

Response to Arguments

Applicant's arguments with respect to claims 9, 10 and 20-22 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 1-8, 11-19, 23-32, 40, 41, 43, 46-49 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3671

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
